REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: In claims 1, 19, the prior art fails to disclose an automated system for immobilizing a vehicle comprising an electrically operated solenoid for positioning a vertically movable pulley to control the tension in an accelerator cable, wherein reduced tension in the accelerator cable disables the accelerator pedal without disabling the engine of the vehicle and also fails to disclose an electrically operated motor and a plurality of gears for positioning a threaded shaft sliding bolt along a rotatable threaded shaft to control the tension in a wire cable attached to a brake pedal of the vehicle, wherein increased tension in the wire cable depresses the brake pedal and deploys the braking system.

In claim 20, the prior art fails to disclose a method for automatically immobilizing a vehicle and comprising the steps of disabling an accelerator pedal of the vehicle by positioning a vertically movable pulley with an electrically operated solenoid for controlling the tension in an accelerator cable and deploying the brakes of the vehicle to stop the vehicle by positioning a threaded sliding bolt along a rotatable threaded shaft using a motor and a plurality of gears for controlling the tension in a wire cable attached to a brake pedal.
